

• Recommendations for Actions •

Canal Alliance recommends to the United States Department of Immigration and Customs Enforcement that when approaching members of our community, they must:

- Discontinue using outdated last known addresses which are really a front for invading unnamed people's homes;
- Refrain from identifying themselves as "police" or "policia," Instead, we ask that they identify themselves as "Immigration and Customs Enforcement." SRPD has worked to build trust with residents in the Canal and the ICE raids have undercut this positive development.
- Arrest only those individuals named on ICE warrants;
- Allow detained individuals to be fully clothed when taken; and
- Provide contact information to family or friends of those arrested

Concerned citizens should contact their congresspersons and voice their objections to the tactics of *Operation Return to Sender*.
